Kay Monroe is currently Director of Project Management at Dynavax Technologies in Berkeley, Ca. She has returned to the Bay Area after a 5 year stint in NJ where she worked as a VP of Operations for Lundbeck Research and where she started Cayman Scientific; a consulting firm supporting drug development in the Life Science industry. Kay has worked in the Biotech industry since 1981 in a variety of companies, large and small. She earned her undergraduate degree in Animal Science from UC Davis and her MBA from Golden Gate University in San Francisco. Her first job out of college was at the bench at Genentech. She is the mother of 4 children.

She will talk about alternative careers in biotech and pharma based on her extensive time and experience in those industries.
