

*East Bay Association for Women in Science Presents:*

**“Using science and technologies for environmental and health problems in developing countries”**

## **Christina Galitsky**

Staff Research Associate, International Energy Studies Group,  
Environmental Energy Technologies Division  
Ernest Orlando Lawrence Berkeley National Laboratory

---

**Thursday, November 29<sup>TH</sup>, 2007**

Novartis\* Room 4.104  
4560 Horton St  
**Emeryville, CA**

6:30pm Light Supper, 7:00pm Meeting Begins

Suggested donation to cover the cost of food, \$10 non-members or \$5 members

---

**Scientists and Science Enthusiasts,**

**Men and Women,**

**And non-AWIS members are Welcome!**

Christina Galitsky is a Staff Research Associate in the International Energy Studies Group, Environmental Energy Technologies Division at Lawrence Berkeley National Laboratory. She received her Master's in Chemical Engineering from the University of California, Berkeley in 1999 and her Bachelor's in Chemical Engineering from the University of Pennsylvania in 1996. Current research focuses on sustainable development projects in developing countries such as developing a fuel efficient cookstove program in Darfur, Sudan, and development of energy efficiency and benchmarking tools for China. Other research includes identifying and assessing opportunities for greenhouse gas emissions reductions in several industrial sectors, developing user-interfaced tools for estimating energy use and efficiency potentials, and providing technical support for several programs.

In 2006, she was named one of MIT Tech Reviews Top Inventors under 35.

**\*NOVARTIS security procedures requires check in at the guard station prior to parking**

**Public transit:** Take BART to McArthur and FREE Emery-go-round (www.emerygoround.com) Hollis Bus to Novartis or take AC transit Bus #19.
